

**MINUTES OF THE
OTTER TAIL COUNTY BOARD OF COMMISSIONERS
New York Mills Offices, Courtroom
118 N Main Avenue, New York Mills, MN
Tuesday, August 21, 2007
9:30 a.m.**

Call to Order

The Otter Tail County Board of Commissioners convened Tuesday, August 21, 2007, at 9:30 a.m. at the Otter Tail County New York Mills Courtroom with Commissioners Dennis Mosher, Chair; Syd Nelson, Vice-Chair; Bob Block, Roger Froemming, and Everett Erickson present.

Approval of Agenda

Motion by Block, second by Nelson, and unanimously carried to approve the County Board Agenda of August 21, 2007, with the following addition:

Land & Resource Director Agenda Items – Common Interest Community Minor CUP Change

Approval of Minutes

Motion by Erickson, second by Froemming, and unanimously carried to approve the County Board Minutes of August 14, 2007, as presented.

Approval to Pay Bills

Motion by Nelson, second by Froemming, and unanimously carried to approve payment of the County Board bills per Attachment A of these minutes.

Ag Extension Update

Ag Extension Educator, Vince Cray, updated the Board regarding trees in stress because of areas of drought and damage from the 2005 wind storm in the County. He has been recommending watering these trees by using a sprinkler to ensure at least one inch of moisture per week. He also discussed drought corn, specifically south of New York Mills where it has been very dry and provided a handout on the topic. Mr. Cray stated that producers are looking into irrigation in this area, as irrigation can make a big difference in crop quality.

4-H Update

4-H Coordinator, Janet Malone, briefed the Board on the 2007 East Otter Tail County Fair. She provided handouts comparing statistics of the 2006 County Fair and 2007 County Fair. There were 1,705 total exhibits at the EOT County Fair in 2007, which is an increase from 1,574 total exhibits in 2006. The State Fair begins August 22, 2007, with EOT County sending 39 exhibitors.

Public Meeting – Proposed Construction of Feedlot

At 9:55 a.m., Chairman Mosher opened the Public Meeting to accept comments regarding the proposed construction of a swine feedlot by Pigs R Us, L.L.C. in Section 32 of Compton Township. County Attorney, David Hauser, stated that typically, the Proposer of the Project would have an opportunity to speak first to explain the project being requested. Then, other interested parties will have an opportunity to provide input. The County Board does not make a decision; rather, the MPCA will receive a synopsis of today's comments and make a decision. Mr. Hauser asked that those speaking today state the reasons for or against the proposed project. The attendance sheet showed 33 signatures.

Deon Roth, President of Pigs R Us, which is a local limited liability company formed by the Roth Family represented the project. He provided a copy of the published notification submitted to the MPCA and floor plans for the proposed facility. Mr. Roth stated that the purpose of the project is as a competitive business. The facility will consist of two barns with 2,488 swine equating to 995.2 animal units. He noted that the project will create 8 – 10 new jobs with wages of \$12 per hour plus benefits and 5 – 7 indirect jobs. It would create new markets for corn and other ag products. He calculated \$600,000 in new income in the area with 6 – 10 new children in nearby schools and an estimated \$30,000 - \$40,000 additional sales tax would be generated. Mr. Roth submitted a handout entitled "Real Estate Purchases Near Feedlots Greater than 1000 AU" showing increased land sales of 33% over appraised value for property sales around other large feedlots. Mr. Roth briefed the Board on new technology and methods to handle manure and stated a commitment to maintaining water quality with zero runoff from the facility and frequent monitoring of manure plan and soil sampling. A 50' setback from wells and 25' setback from wetlands would be maintained. Mr. Roth stated that there is 4 times the amount of land to apply manure on a 2 times per year basis with plenty of storage. He reported approximately 10 gallons of water consumption per minute, well under the 600 gallons per minute used in irrigation. He stated a commitment to air quality to make sure the air is not polluted. Specific information for expectations of odor and other pollutant factors, at property lines, will be provided by an Air Modeling Engineer. In the event that there is an additional smell factor, Mr. Roth provided a Tree Planting Plan from the EOT Soil and Water Conservation District for adding 3,800 trees around the facility to provide a shelter belt for sight and smell. Feed and pit additives can be used on limited basis for a quick action odor occurrence. A BioCurtain handout was submitted for possible usage as well to divert air direction by going over fan biofilters. He addressed traffic concerns and stated potential usage of one semi per day as well as employees traveling to and from work during normal business hours. It is anticipated that insecticides would be used to mitigate insects. A handout from Valco was provided for decibel tests and readings. An "Operation and Maintenance Plan" as well as a "Nutrient Management Plan" for manure handling and storage areas and operation practices was submitted. Mr. Roth stated that his company wants to do the right thing for farming, neighbors, and community.

Commissioners questioned the amount of land available for the project, the length of time manure would be stored, and the size of the semi needed for transporting manure in relation to damage to the township roads.

Ron Tobkin of Perham, MN, spoke in favor of the project and in support of the Roth family as good farmers involved with clean and well-managed operations. He spoke about his personal experience similar to this current situation when he developed a project north of Perham in 2005. He stated that he was aware of proponents' objections; however, technology is changing and there is a need to adapt to these positive changes allowing animal agriculture to survive in Minnesota.

Charlie Gantzer of Barr Engineering provided a PowerPoint presentation on behalf of the Operator relative to the issue of odor from the facility. The presentation showed that the proposed Roth Hog feedlot will meet all air quality required parameters.

Norma Read, residing on 280th Street, presented a Citizens' Petition with 198 signed petitioners opposing the construction of this hog feedlot. The Petition cites the following reasons for opposition to the project:

1. Potential for significant environmental/health effects.
2. Decreased property values of the properties in the vicinity of the Project, particularly neighboring residences.
3. Negative affect on drinking water as the soils in the area are sandy and allow surface applied manure to quickly go down to the ground water. Wells in the vicinity are very shallow and the Project proposes to land apply millions of gallons of untreated liquid hog manure.
4. Smells to the neighboring properties probably will decrease the air quality in the area and the air toxins from the Project are bad for the health of the neighbors and can make them sick.
5. The project will generate an increase in insects and flies.
6. The owner does not live on the premises and is a commercial or industrial operation making the project inconsistent with existing land uses in the area.
7. The Project will cause much traffic due to hauling animals, feed, and manure and the township roads in the vicinity will be damaged and Town Board road budget will increase.

Ms. Read stated that this petition is a copy with the originals being presented at the Compton Township meeting being held the evening of August 21st. Oak Valley Township is also affected. Ms. Read states that the petitioners are not anti-ag, they are opposed to this location, as it is improperly located too close to neighbors and other landowners. She pointed out the large number of yellow dots on the PowerPoint presentation which represented houses, farms and residences too close to a facility being built on 40 acres. She stated that ambient air quality cannot be guaranteed. She expressed opposition to having this facility in her front yard.

John Read of 280th Street spoke in opposition to the proposed project because it is too close to other residences. He was opposed to the MPCA not using the animal end areas of the facility in the calculations of what is allowed, opposed to no land use regulation in Otter Tail County other than shoreland regulations, and concerned that Pigs R Us is represented by a Canadian organization out of Quebec, Canada and stated that the Canadians have a moratorium on industrial operations of this kind.

Mr. Roth responded that the ends of the barns are for infrastructure, not housing and that his company has no involvement with Canada.

Robert Rawlings expressed concern with the distribution and application of manure on fields. He stated that this factory and byproduct manure will be a combination of other chemicals in addition to manure product and the weight of the 6,000 gallon tractor trailer with manure cannot be handled by the township roads. He expressed concern with the potential application of manure mixture, which contains chemicals and insects, being applied at certain times of the year when there are 3-4 ft. of water on the fields where there is the potential for it to wash into our lakes, rivers, and streams. Chemicals could also wash into nearby wells. Mr. Rawlings stated that he is a landowner and farmer and believes that the mixture they will be collecting under their facility all year, spread in short increments throughout the year, is not an appropriate way to spread manure and would affect farming on his land.

Kari Mohr-Rawlings is a licensed realtor and presented information in opposition to Mr. Roth's statement of increasing property values. She provided an abstract out of an appraisal journal that addresses the issues on feedlots which shows a 50% - 90% decrease in values. Ms. Rawlings states that neighbors have the right to enjoy their properties and transfer their properties. She stated that 79% of the net worth is assets, which is equity used to purchase machinery and animals. She is opposed for numerous other reasons including awareness of relatives living near a feedlot in Manitoba who cannot hang out laundry because of the smell.

Neighbor, Diane Schlueter, expressed opposition to the project because her home is 900' from the facility. Property values will go down. There will be odor and noise from the fans, additional flies and mosquitoes posing a health concern and nitrates in the soil. Ms. Schlueter read a statement from an individual who is a mile away from a similar facility who has to keep their windows and doors shut and the smell still gets into the carpets, furniture and curtains. The land is not large enough and too close to other residences.

LeRoy Vandermay opposed the hog operation because of what it may do to his hog operation and the health risks related to hydrogen sulfide, methane, and ammonia.

Don Richter from Compton Township spoke in opposition to the conglomerate and stated that conglomerates harm the local farmers. He was also concerned with health issues.

Gary Ziese stated that the SWCD plan handed out by the owner has not been approved by the EOT Soil and Water Conservation District. He stated that this needs to be studied.

Bob Swartz opposed the project and expressed concern that the people operating the facility do not live next to the facility.

Written objections to the Pigs R Us Project were received from Angie Mikkelson, a landowner on 280th Street. A handout entitled "The Truth About Factory Farms" and correspondence from Peters & Peters, Attorneys At Law, were also received.

Chairman Mosher informed the public that the information heard will be passed on to the MPCA for a decision. The County does not have the authority to make a decision in the matter.

AGREEMENT NO. 90979 SIGNALS & GATES
CROSSING NO. 695582B - S.P. 56-00117
Otter Tail County Resolution No. 2007 - 58

Upon a motion by Froemming, second by Block, and unanimously carried, the following resolution was adopted:

BE IT RESOLVED, that the County of Otter Tail enter into an agreement with the Soo Line Railroad Company (D/B/A/ Canadian Pacific Railway Company) and the Commissioner of Transportation for the installation and maintenance of railroad flashing light signals with gates and constant warning circuitry at the intersection of East Soo Street (CSAH 42) with the tracks of the Soo Line Railroad Company in Parkers Prairie, Otter Tail County, Minnesota, and appointing the Commissioner of Transportation agent for the County to supervise said

project and administer available Federal Funds in accordance with Minnesota Statute, Section 161.36. The County's share of the cost shall be 10 percent of the total signal cost.

BE IT FURTHER RESOLVED, that the County Board Chair and County Board Clerk be and they are hereby authorized to execute said agreement and any amendments thereto for and on behalf of the County.

Adopted at New York Mills, Minnesota, this 21st day of August, 2007.

AGREEMENT NO. 91644
VERGAS MULTI-USE TRAIL – S.P. 56-090-05
M.P. TEAX 5608(078)
Otter Tail County Resolution No. 2007 - 59

Upon a motion by Erickson, second by Froemming, and unanimously carried, the following resolution was adopted:

BE IT RESOLVED, that pursuant to Minnesota Stat. Sec. 161.36, the Commissioner of Transportation be appointed as Agent of Otter Tail County to accept as its agent, federal aid funds which may be made available for eligible transportation related projects.

BE IT FURTHER RESOLVED, that the County Board Chair and County Board Clerk are hereby authorized and directed for and on behalf of the County to execute and enter into an agreement with the Commissioner of Transportation prescribing the terms and conditions of said federal aid participation as set forth and contained in "Minnesota Department of Transportation Agency Agreement No. 91644", a copy of which said agreement was before the County Board and which is made a part hereof by reference.

Adopted at New York Mills, Minnesota, this 21st day of August, 2007.

Highway Contract

Motion by Mosher, second by Nelson, and unanimously carried to authorize the Chairman's signature to execute a contract between the County of Otter Tail and Riley Bros. Construction, Inc. for work and labor in the construction of CSAH No. 1 from CSAH 26 to 601 feet North of CSAH 2, South of Fergus Falls, MN.

BRIDGE REPLACEMENTS
2008 – 2012
Otter Tail County Resolution No. 2007 - 60

Motion by Froemming, second by Erickson, and unanimously carried to adopt the following resolution:

WHEREAS, Otter Tail County has determined that the following deficient bridges on the CSAH, County Road, Township and City systems require replacement or rehabilitation within the next five (5) years as listed in our 2007 – 2012 Highway and Bridge Improvement Plan approved by the Otter Tail County Board of Commissioners on February 13, 2007, and

WHEREAS, attached is the list of the proposed bridge replacements for the 2008 – 2012 Bridge Replacement Program, and

WHEREAS, sufficient local funds for the replacement or rehabilitation of these bridges are not and will not be available, so that funding assistance from State Transportation Bonds is necessary for the County, Townships and Cities to proceed, and

WHEREAS, Otter Tail County intends to proceed with replacement or rehabilitation of these bridges as soon as possible when State Transportation Bond Funds are available.

BE IT RESOLVED, that Otter Tail County commits that it will proceed with the design and contract documents for these bridges immediately after being notified that funds are available in order to permit construction to take place within one year of notification.

Adopted at New York Mills, Minnesota, this 21st day of August, 2007.

Recess & Reconvene

At 11: 07 a.m., Chairman Mosher declared the meeting of the Otter Tail County Board of Commissioners recessed for a short break. The meeting was reconvened at 11:12 a.m.

Planning Commission Recommendations

Conditional Use Permit – Buse Township/Luverne Lee:

Motion by Mosher, second by Erickson, and unanimously carried to approve an after-the-fact Conditional Use Permit for installation of a pipe that drains to Iverson Lake to prevent a road from washing out as presented. The property is described as Lot 2 & SW1/4 NE1/4 & 5 acres in SE cor of Govt. Lot 1 & a portion of 175th St. approx. 100'± E of County Highway 25, Section 26 of Buse Township; Iverson Lake (56-846), NE.

Conditional Use Permit – Carol Martinson/Juanita Gronda:

Motion by Froemming, second by Nelson, and unanimously carried to approve a Conditional Use Permit to construct a road as presented. The property is described as Pt of GL 1, 2 & 3, Section 17 of Otto Township; Rush Lake (56-141), GD.

Conditional Use Permit – Larry Scheffler:

Motion by Nelson, second by Erickson, and unanimously carried to table this request until September 12, 2007, as requested by the Applicant in a letter dated August 10, 2007, provided Land & Resource Management receives a 60 Day Waiver (in writing) no later than August 28, 2007. The property is described as Lot 1 Blk 2, Crystal Springs 1st Addition & vacated road adj., Section 3 of Lida Township; Franklin Lake (56-759), RD.

Conditional Use Permit – Wee Villa LTD Partnership:

Motion by Erickson, second by Block, and unanimously carried to approve a Conditional Use Permit to replace existing 10 x 40 mobile home, remove 10 x 16 porch, and install roof on existing 12 x 57 mobile home as presented. The property is described as Lot 4 ex trs (36.15 AC), Section 14 of Elizabeth Township; Long Lake (56-784), RD.

Conditional Use Permit – Matt Theraldson:

Motion by Erickson, second by Froemming, and unanimously carried to approve a Conditional Use Permit for earthwork as presented on the Revised Drawing with a condition as recommended by the Planning Commission. The property is described as Pt GL 3, (2.77 AC), Section 11 of Scambler Township; Pelican Lake (56-786), GD.

Conditional Use Permit – “Lazy Acres Resort”/Terrance & Elizabeth Larson:

Motion by Nelson, second by Froemming, and unanimously carried to approve a Conditional Use Permit to construct a new screen porch and storage shed with conditions as recommended by the Planning Commission. The property is described as Ryan’s Beach W1/2 Lot 4 & Lots 5 – 10, Section 2 of Edna Township; Little McDonald Lake (56-328), GD.

Preliminary Plat – “Collins Landing”/Tom & Jodie Collins et al:

Motion by Block, second by Erickson, and unanimously carried to approve a Preliminary Plat entitled “Collins Landing” consisting of a one (1) lot plat as shown on the revised plan received at the August 15, 2007 Planning Commission meeting with conditions as recommended by the Planning Commission. The property is described as Pt of GL 3 (3.24 AC, 2.51 AC & 4.67 AC), Section 34 of Star Lake Township; Dead Lake (56-383), NE.

Conditional Use Permit – Kevin & Michelle Moore:

Land & Resource Director, Bill Kalar, reported that the Moore’s have hired a new contractor who indicated that the plan approved last year could not physically be constructed on site. After discussion regarding a new proposal, it was decided that the new proposal was a substantial change from what was approved and probably a reduction in what was allowed. The Planning Commission recommended that the new proposal be brought before the Planning Commission and secondly, work this fall in this area is not recommended. The County Board concurred with the Planning Commission’s clarification on this project.

Common Interest Community – Norway Estates 2nd Addition

Mr. Kalar showed a map of a CIC entitled Norway Estates 2nd Addition located on the south side of Stalker Lake. The CIC Developer is requesting a minor change in the Conditional Use Permit relative to locating Unit 1, Unit 6, and the proposed fish cleaning house in different locations than originally planned. This plan would provide each resident a view of the lake. Motion by Erickson, second by Block, and unanimously carried to allow the revised location of residential unit 1 and 6 and the fish cleaning structure as requested.

Closed to the Public

At 11:40 a.m., Chairman Mosher declared the meeting of the Otter Tail County Board of Commissioners closed to the public for the purpose of evaluating the performance of Land & Resource Director, Bill Kalar, pursuant to M.S. Chapter 13D.05 Subd. 3. Commissioners Mosher, Nelson, Froemming, Block, and Erickson were present for the evaluation. A summary of performance conclusions will be provided at the next regular County Board meeting. Upon conclusion of the performance evaluation at 11:55 a.m., Chairman Mosher declared the Board of Commissioners' meeting recessed for lunch break.

Meeting Reconvened

At 1:00 p.m., Chairman Mosher reconvened the Board of Commissioners' meeting in open session for consideration of the remainder of the agenda items.

County Ditch No. 12

Ditch Inspector, Randy Wasvick, reported that MnDOT is replacing culverts under Hwy 108 and there are two spots where County Ditch 12 is involved. Mr. Wasvick requested authorization to allow MnDOT to replace these culverts with one area requiring work by the Ditch System. Mr. Wasvick referred to a map and explained the proposed work. Lengthy discussion took place regarding plugged tile for purposes of creating a wetland to put in an easement with the Fish & Wildlife, the potential need for a standpipe to hold the wetland at a certain elevation, the length of time the wetland has existed, and who is responsible for payment of the expenses to replace the culvert in this area. Motion by Erickson, second by Block, and unanimously carried to allow MnDOT to replace the culvert farthest west under Hwy 108 in County Ditch No. 12 with further research required before replacement of the other culvert is authorized.

Draft Junkyard Ordinance

Solid Waste Director, Mike Hanan, and Visual Chaos Committee members presented a draft Junkyard Ordinance for Otter Tail County. Discussion items included the desire for a stand-alone ordinance not tied to another ordinance, a committee to assist with enforcement, and a request for public hearings to be held next spring or early summer when lake residents are in the area. County Attorney, David Hauser, stated that the legislature has passed some laws of pre-existing conditions that can exist, so further research needs to be completed as those laws may relate to this type of Ordinance.

Commissioner Bob Block was absent at 1:41 p.m.

Perham Resource Recovery Facility Governance Discussion

Solid Waste Director, Mike Hanan, submitted a resolution regarding the future governance of the Perham Resource Recovery Facility (PRRF). Perham City Administrator, Bob Louiseau, was also present. Mr. Hanan explained that 1) there is a need to resolve the governance issue aside from the discussion whether or not to expand the facility, and 2) the counties would like to move forward with a Joint Powers type of governance with the resolution providing the groundwork of the background of the facility and how today's situation with the facility has occurred. Mr. Louiseau identified some areas of concern with the resolution. The Board was in favor of some type of Joint Powers Board governance for the PRRF and requested that Mr. Hanan relay that message at the next County Coordinating Committee meeting.

License Application

Motion by Mosher, second by Nelson, and unanimously carried to approve the following application for license:

Stalker Lake Golf Course
Dalton, MN 56324

On-Sale Liquor License
Sunday Liquor

Performance Evaluation Summary

Motion by Froemming, second by Erickson, and unanimously carried to approve a commendable performance evaluation for Solid Waste Director, Mike Hanan, which will be placed in his personnel file.

Adjournment

At 2:40 p.m., Chair Mosher declared the meeting of the Otter Tail County Board of Commissioners adjourned until Tuesday, August 28, 2007.
