

Early Implementation Strategy (2010)

- Install driver feedback signs in summer 2010
- Coordinate installation with planned locations under the Complete Traffic Calming Alternative (subset of locations)
- Complete sign cost including appropriate pole is approximately \$10,000/sign
 - Recommend installation of six signs as part of early implementation. Six signs at \$10,000/sign = \$60,000 for early implementation¹

¹ Cost Estimate does not include engineering, construction, or electric costs
